A Request from Shimane Prefecture

To all citizens and those planning on returning to Shimane Prefecture, I kindly request the following four points:

1. Some people may be worried about infection from family or friends returning to Shimane Prefecture. If you are planning a visit, please once again take the time to discuss your plans with family.
2. Until your return to Shimane Prefecture, please avoid visiting locations at risk of the “Three Cs” (closed spaces, crowded places, and close contact with people), such as nighttime shopping and entertainment districts.
3. If staying at a family member’s house with other people, please thoroughly practice infection prevention measures (e.g. thoroughly avoiding the “Three Cs,” wearing a mask, washing your hands, practicing cough etiquette, social distancing, etc.).
4. If it is difficult to thoroughly practice such infection prevention measures when staying at a family member’s house, please consider staying at a hotel or other lodging instead.

3 August 2020

Maruyama Tatsuya
Governor of Shimane Prefecture
